

Graham Eastick, head of Dexion's Key Accounts team, recently announced that Dexion will shortly open a state branch in Perth to further strengthen its national sales, service and distribution network. Graham stated, "The branch will provide a prominent base for an expanded Key Accounts team to operate from, plus a warehouse facility sufficient in size to meet rapidly increasing customer demand."

"The Key Accounts team essentially services the needs of major customers, and works in partnership with the two existing franchised Dexion Supply Centres in Canning Vale and Balcatta," he said.

The new branch highlights Dexion's commitment to provide total and coordinated national coverage for its customers.
