

Dexion Pro90 Smart Guard

Product overview

Dexion's new Pro90 Smart Guard safeguards your upright from serious damage and protects your pallet racking investment in the long term.

The simple hook and loop attachment method combined with the smart clips makes it fast to install and remove for re-locations or rack inspections, saving you time and money.

The Dexion Pro90 design eliminates the need for securing straps, fixing bolts or interference fit like other protectors on the market. This allows the upright protector to absorb shock independently of its connections without risk of shearing straps, deforming the protector and preventing costly floor repairs.

Key features and benefits

- Streamline design for minimal intrusion into pallet space
- Designed with side upright protection
- Robust high-impact plastic outer shell
- Dense shock absorber to withstand impact
- No fixings or tools required for installation
- Cold room safe down to -40 degrees
- Fast to install and remove, can be re-used during re-location
- Adjustable positioning
- High visibility safety orange
- Suitable for all 90mm uprights
- AS4084-2012 compliant

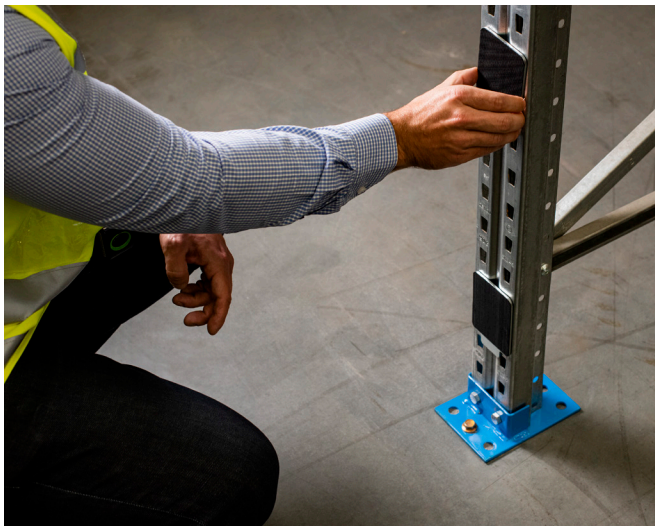

Dexion Pro90 Smart Guard

Technical specifications
