

Dexion | Pro90 Rear Upright Deflector

Product overview

Dexion's new Pro90 Rear Deflector is engineered to reduce damage to the inside edge of the rear uprights. The innovative design helps guide the pallet away from the exposed upright edge and minimise the impact and damage to this area.

With no tools required for installation, the Pro90 Rear Deflector is simple and quick to install.

In addition, the bright orange colour makes it easier for operators to see the rear upright and reduce the impact of a potential collision.

Key features and benefits

- Designed for minimal intrusion into the pallet space
- Robust high impact plastic
- No fixings or tools required
- Easy and fast to install – Tap into position or roll in, using the connecting clips
- Simply slide up for inspection
- Suits both standard and heavy duty base plates
- The deflector can be stacked if required, to increase the height
- The high visibility safety orange colour provides a clear visual to the operator
- Suitable for most 90mm uprights

Dexion | Pro90 Rear Upright Deflector
