

Dexion Ultima Longspan 2 Swing Door Cabinet

Product overview

Dexion's Ultima Longspan 2 Swing Door Cabinet turns a standard Longspan 2 shelving bay into a secure, lockable cabinet. This complete assembly can be fitted to new Longspan2 shelving bays, or retro-fitted to existing bays. In addition to the lockable Swing Doors, the shelving bay is enclosed using side panels, a top panel and a back panel. An optional Pivoting back panel can be used in place of the standard back panel to vastly improve ease of adjustment of internal beam / shelf levels after initial installation.

The reinforced door panels boast 2 point locking operated via a Secure 3000 series locking system featuring a removable barrel folding key with antimicrobial properties along with Master key and Barrel removal key functionality. This lock system and key functionality is interchangeable across Dexion's Strata2 cabinet range and Ultima CI-80 shelving Swing Door system.

Contact your local Dexion representative for further information.

Key features and benefits

- Reversible left / right hand door positioning
- Key lockable Swing Door (locks keyed to differ as standard)
- Master key and barrel removal key options (to match Strata2 cabinets)
- Full height recessed handles
- Reinforced door panels
- Durable powdercoat finish
- Fast to install and remove, can be re-used during re-location
- Limited use of tools required for installation
- Quick release pivoting back panel (optional)
- Retrofit side panel kits available (used for existing shelving)
- Shelving bays with doorsets must be fixed to floor / wall regardless of size
